 Aim High

### Acknowledgement

*We acknowledge the Wergaia peoples as the traditional custodians of the lands upon which Tyrrell College is situated. We pay our respects to their elders – past, present, and emerging – and we acknowledge their deep care of the lands we live on. We also acknowledge that for tens of thousands of years our First Nation's peoples have engaged in – and passed on – excellent teaching and learning practices on the spaces upon which our community members learn today.*

## PRINCIPAL'S REPORT

**Dear Tyrrell College Community,**

### School Review

On Monday and Tuesday, we kicked off the first two days of our school review. It was a great chance to take a closer look at what we are doing well and where we can keep improving. Staff and students were involved in conversations with reviewers, providing important feedback. The review will continue next week.

### School for Student Leadership

On Friday, I had the chance to visit our Year 9 students at the Gnurad-Gundidj Campus – School for Student Leadership. It was an amazing experience to see how much the students involved have grown and developed as young leaders. Our students, along with the other schools involved, presented their Community Leadership Project, that they will undertake once they return to school.

### CSEF (Camps, Sports, and Excursions Fund) Funding Reminder:

2025 Applications for CSEF close on 4 July, if you are a holder of a Health Care Card, your child may be eligible for CSEF Funding. Eligible Primary students receive \$154 and Secondary students \$256. The CSEF provides payments to assist eligible families to cover the costs of camps, sporting activities, excursions and incursions. Payments are made directly to an eligible student's school. Schools must use a CSEF payment only for the eligible student or for that student's siblings. If you have a current Health Care Card, please provide a copy to the Front Office or contact them on (03 5070 2106) no later than the 1st July to allow time to process.

Have a great weekend.

# VM Cooking Class

Continuing their journey into the world of survival post schooling, the VM class successfully whipped up, or in this case rolled, a batch of sausages rolls on Friday June 6 which were scrumptious, leaping off the oven tray and into their mouths! However, as they took a little bit longer to cook than what the recipe instructed so all decorum was abandoned as they devoured them like a pack of wild animals.

Last week was the long-awaited foray into cooking pancakes, using the family recipe of the Stacey family. After working hard to flip numerous batches with varying degrees of success, the boys descended on them quicker than a wedgetail on roadkill and enjoyed a sumptuous steaming plate of pancakes topped with scoops of ice cream and lashings of maple syrup. This week sees the boy's journey to Italy, to the region Bologna, to craft their culinary skills in making bolognaise. Ciao for now!

# YEAR 7 SCIENCE

---

In Year 7 Science last week, students were investigating making biogas from banana peels and yeast. The gas formed inflated their balloons, which students decorated. The results were impressive with some of the balloon circumferences reaching more than 40cm. Thanks to Miss Carter for organising the experiment and assisting the students.

# VET Taster Day

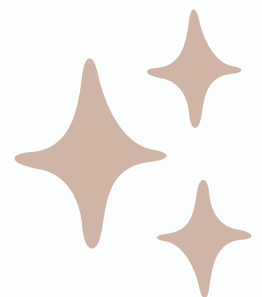

The Year 9 students attended a VET taster day at Charlton on Thursday June 12. The students attended in an effort to gain an insight into the possible VET subjects/courses available at Charlton Trade Training Centre for 2026.

The North Central Trade Training Centre (NCTTC) provides start-of-the-art vocational educational and training facilities to meet the needs of students in Years 10 to 12.

Based in Charlton, the NCTTC is a partnership of nine local schools (Boort District School, Charlton P-12 College, Donald High School, East Loddon P-12, Pyramid Hill P-10 College, St. Arnaud Secondary College, Tyrrell College, Wedderburn P-12 College and Wycheproof P-12 College). The Centre provides specialised vocational education and training in the fields of agriculture, animal studies, automotive, building & construction, engineering, hair, beauty, community services, health, hospitality, music, and sport & recreation. North Central students in Years 10 to 12 have the opportunity to undertake VET as part of the Victorian Certificate of Education (VCE).

The students had a very educational day, meeting teachers and trainers and participating in information sessions. This will further support their subject selection process in Term 3.

Thank you to Mr Kelly for attending with the students.

# WRS Class

Students in Miss Cook's WRS class have been busy completing their work safe module certificates in preparation for their upcoming work experience week. All students successfully completed the two modules with help from Tarsh and Miss Cook. They have also been focusing on creating a digital portfolio to display which they will take with them to their work experience employer.

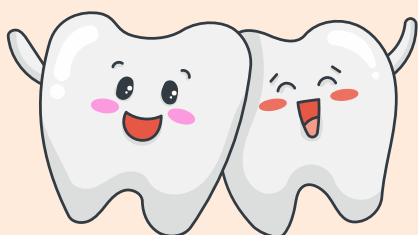

Hello Tyrrell College,

The Smile Squad team from RFDS have now completed their visit at our school.

If anyone in your family returned their consent form but didn't get seen, or require further appointments, it's not too late.

You can visit Mallee Track Health and community Service at their community dental clinic. Please contact the team at any time to book an appointment. Just let them know you signed up to Smile Squad and have returned a consent form. This is a free service.

# Make a connection to safety and help

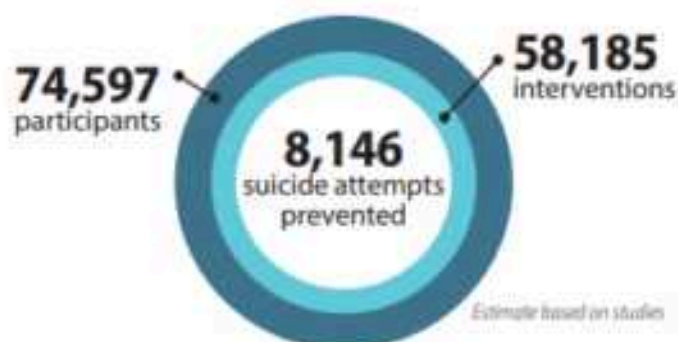

## Play a role in suicide prevention

LivingWorks safeTALK helps you notice and respond to situations where thoughts of suicide may be present.

You will learn to:

- Understand how to reach out to someone thinking about suicide
- Help them keep safe by connecting them to further support
- Talk openly about suicide and personal and community attitudes

### safeTALK's impact in 2022

### safeTALK works

Studies show that participants gain confidence:

- ☒ Asking people about suicide directly
- ☒ Connecting them to life-saving resources
- ☒ Keeping them safe until those resources take over
