### Purpose Statement & Values

To provide a safe, positive and challenging environment where everyone aspires to aim high and become responsible, caring and contributing community members.

Respect  
Responsibility  
Honesty  
Aim High

### Acknowledgement

*We acknowledge the Wergaia peoples as the traditional custodians of the lands upon which Tyrrell College is situated. We pay our respects to their elders – past, present, and emerging – and we acknowledge their deep care of the lands we live on. We also acknowledge that for tens of thousands of years our First Nation's peoples have engaged in – and passed on – excellent teaching and learning practices on the spaces upon which our community members learn today.*

## PRINCIPAL'S REPORT

### Dear Tyrrell College Community,

Term 4 has begun with a sense of urgency and anticipated successful completions. As your new Principal it's important to start the consultation and planning for 2026 now too.

We started a review phase on Monday and shared knowledge, understanding and experiences in the Behaviour/Wellbeing areas.

Staff reflected on a number of approaches that have been used over the last few years, and it was apparent that they have implemented these different approaches with fidelity, however with changes of staff there is some inconsistency and understanding across the school.

Works in progress are:

- Developing a 2026 whole school shared behavioural expectation matrix
- Creating the 2026 Annual Implementation Plan (AIP)
- Developing the 2026 calendar including meetings and pupil free days
- Planning 2026 Camps, Incursions, Celebrations and Excursions and predicted costing
- 2026 Timetabling
- 2026 Transition

and importantly 2025 Celebrations!

Have a lovely weekend.

**Principal**

A reminder that we are a Sun Smart school and our school bucket hats are to be worn when outside during Terms 1 & 4. If your child needs a new bucket hat they can be ordered for \$15 at the Front Office.

# Year 7 & 8 Rubicon Camp

A cosy group of 16 Year 7 and 8 students headed to Rubicon Outdoor School aboard the trusty Tyrrell bus, with the ever-experienced light-rigid bus drivers, Mr Leo and Mrs Wright, at the helm.

With a string of educational questions reverberating within the bus, “Are we going to Maccas in Bendigo?”, “What time will we be at Maccas?”, “How much longer until we get to Maccas?”, the adventurers made their five-hour journey ‘to infinity and beyond’!

The three days were jam-packed with exhausting activities which challenged even the most capable. Mountain bike riding was a hit with most; even Miley, who previously had not successfully ridden a bike, was able to cruise the tracks on a fancy mountain trike.

The skills displayed when rafting Big River would have given Jessica Fox a run for her medal, any day of the week. Students topped off their exploits with water fights, raft running races and some technical angled tree parking.

As we headed up to Lake Mountain Resort we began to doubt the words of our group leaders, who assured us we would be cross-country skiing, because the snow was as scarce as a Collingwood supporter with a full set of teeth. But after a long hike up the mountain, with skis and poles in hand, we reached the holy grail. Not only did we swoosh the snow-covered slopes in style, but snow also fell on us while we ploughed down the slopes into trees, shrubs, ditches and each other; except for Mr Leo and Mrs Wright who conquered the down-hill slalom in record time.

Back at Rubicon Outdoor School, students excelled themselves with their aptitude and commitment to packing away the equipment used during the day. They refuelled themselves in the dining hall like hens scratching in the hen house – literally; food spilt everywhere over the dinner table, but they cleaned up their mess and they tried everything, presenting themselves with manners and respect.

# Head Lice

Remember that school holidays are a peak time for headlice to visit, when children come into close contact with others and when travelling for holidays and meeting new people.

Please remember to do a headlice check on your child's hair before returning to school next term.

Headlice are very active critters and can move in at any time, they can lay over 50 eggs in the span of a week. Within 7-10 days these eggs hatch and new hatchlings are capable of laying eggs themselves within 16 days. So, you can see why regular checking is recommended, don't wait until you notice your child scratching their head (not all children will scratch) but if they are please investigate and stay vigilant. If you need help or want more information about detecting and treating headlice, please don't hesitate to contact Carol Elliott (secondary school nurse) at the school.

Headlice are out and about with our warmer weather and they have been seen in the past week.

Please check your children carefully as they are difficult to see to the naked eye and small nits can often be mistaken, as they are no bigger than a grain of sand in their infancy.

The best method of checking is to use the "conditioner comb through"

- Apply a generous amount of conditioner to your child's dry hair and work it through the hair thoroughly coating all the hair on your child's head.
- Then using a normal comb at first, comb through the hair, using a downward stroke. After each stroke wipe off the excess conditioner onto white paper towelling.
- Thoroughly inspect the paper towel after each wipe for signs of nits or eggs.
- After working over the entire head, change the comb to a fine headlice/nit comb and repeat the process using downward strokes through the hair, covering the whole head, wiping each comb stroke onto the paper towel.
- Inspect the paper towelling for any signs of lice or eggs, if you are unsure, of any specs, wipe onto a piece of sticky tape and cover with a second piece of tape sealing the item. And send them to school to Carol Elliot-school nurse, in an envelope.
